May/June 2014

There were 26 residential burglaries during the month of May, with 0 occurring at an active Block Watch residence. And there were 38 residential burglaries during the month of June, with 0 occurring at an active Block Watch residence.

BEE VIGILANT!

The City of Renton and surrounding communities are starting to see an increase in theft from vehicles at gas pumping stations.

The thief will typically target a female victim who is pumping gas, sneak up to the passenger side of the vehicle, open the door, and then take their purse from the vehicle. A lot of times these purses are laying on the front seat or floorboard, but they've also been taken from behind the passenger seat.

The thieves tend to prefer a pumping station where the vehicle is pulled away from direct view of the cashier, but they'll take advantage of whatever opportunity is given to them.

I recommend you lock your vehicle – or at minimum, the doors facing away from you – while you're pumping gas. If you *must* leave your purse in the vehicle, then place your purse behind the driver's seat if you're going to be out of the car pumping gas. Of course, if you need to leave your vehicle to pay, you should not leave your purse inside your car and all your doors should be locked. With our busy lives we tend to leave all types of things inside our car and a thief would be happy to relieve us of most of those items.

If you discover you are a victim of this crime, please report it to 911 immediately, cancel all the credit cards you had in your wallet and put fraud alerts on your financial accounts. Thieves know they only have a limited amount of time to spend your money so they try and use your credit cards as quickly as possible after stealing them.

Feel free to share this information with those in your social circle. You could save them a lot of heartache!

Summer Must Be Here!

You can never be too prepared as far as I'm concerned, and there's no magic solution when it comes to trying to protect your valuables.

A week doesn't go by where I receive a phone call or email from somebody who tells me "crime is increasing in their neighborhood" because cars are being broken into. Prowlers are everywhere all the time - it's not necessarily reflective of a crime spree. But - if you leave valuables in your vehicle, you take a risk of it being broken into.

The thieves will pry your vehicle door or break your window to get to them. I understand that sometimes nothing is reported stolen; that's a prowler 'taking a shot' because they have already been drawn to the neighborhood. There are no guarantees in life, but to lower the chances of attracting prowlers into your neighborhood you have to be ever-vigilant and certainly always cognizant of what you're leaving in your car when you park it. It's up to us to make our vehicles, and our neighborhoods as a whole, as inhospitable to thieves as possible.
